E-one Installation Inspection Permit Application

Date: _____

Name: _____

Address of pump installation: _____

Billing address if different than above: _____

Name of Certified E-1 Installer: _____

Inspection fee payable to The Town of Norwood: **\$30.00**

Inspection fee to consist of two separate inspections to be conducted by Stanly County Central Permitting.

Inspection (1) - the inspector will inspect the placement of the tank and the bed of 6" 3/4 wash stone the tank sits on.

Inspection (2) - will consist of the inspector inspecting the one yard of concrete around the base of the basin.

Note- Sewer piping connections and electrical cord wiring extensions should be completed prior to this inspection.

This will allow the contractor to complete the back fill on the tank to avoid a third inspection.

There are additional permits required for the plumbing and electrical inspections. These permits can be obtained at Stanly County Central Permitting located at 1000 N. First Street, Suite 13C, Albemarle, NC 28001. Please submit a copy of this application when you file for your permits with Stanly County Central Permitting. The Town of Norwood will be happy to supply you a copy of your application. The Town of Norwood will email Central Permitting a copy at the time that payment is made.

A licensed plumber, certified by E-One, and a licensed electrician is required to install the E One pump and basin.

You are responsible for installing the pump/basin in accordance with all state/local codes.
